

## Boric Acid

Version number: 1.0

### SECTION 1: Identification

#### 1.1 Product identifier

Identification of the substance                      boric acid

Trade name                                              **Boric Acid**

CAS number                                              10043-35-3

#### 1.2 Relevant identified uses of the substance or mixture and uses advised against

Relevant identified uses                              Fertilizers

#### 1.3 Details of the supplier of the safety data sheet

Valudor Products, LLC                              Telephone: +1 (760) 635 8500  
179 Calle Magdalena Suite 100                      e-mail: info@valudor.com  
Encinitas, California CA 92024                      Website: www.valudor.com  
United States

#### 1.4 Emergency telephone number

Emergency information                              800-535-5053 (Infotrac)

As above or nearest toxicological information center.

### SECTION 2: Hazard(s) identification

#### 2.1 Classification of the substance or mixture

Classification acc. to OSHA "Hazard Communication Standard" (29 CFR 1910.1200)

| Classification |                       |          |                           |                  |
|----------------|-----------------------|----------|---------------------------|------------------|
| Section        | Hazard class          | Category | Hazard class and category | Hazard statement |
| A.7            | reproductive toxicity | 1B       | Repr. 1B                  | H360FD           |

For full text of abbreviations: see SECTION 16

#### 2.2 Label elements

Labelling acc. to OSHA "Hazard Communication Standard" (29 CFR 1910.1200)

Signal word                                              danger

# Boric Acid

Version number: 1.0

---

## Pictograms

GHS08

## Hazard statements

**H360FD** May damage fertility. May damage the unborn child (if swallowed).

## Precautionary statements

**P201** Obtain special instructions before use.  
**P280** Wear protective gloves/protective clothing/eye protection/face protection.  
**P308+P313** If exposed or concerned: Get medical advice/attention.  
**P405** Store locked up.  
**P501** Dispose of contents/container in accordance with national regulations.

## 2.3 Other hazards

### Results of PBT and vPvB assessment

According to the results of its assessment, this substance is not a PBT or a vPvB.

## SECTION 3: Composition/information on ingredients

### 3.1 Substances

|                          |             |
|--------------------------|-------------|
| <b>Name of substance</b> | boric acid  |
| <b>Identifiers</b>       |             |
| CAS No                   | 10043-35-3  |
| <b>Molecular formula</b> | H3BO3       |
| <b>Molar mass</b>        | 61.83 g/mol |

## SECTION 4: First-aid measures

### 4.1 Description of first-aid measures

#### General notes

Take off immediately all contaminated clothing.  
Remove victim out of the danger area.  
Self-protection of the first aider.

#### Following inhalation

Provide fresh air.  
If breathing is irregular or stopped, immediately seek medical assistance and start first aid actions.

#### Following skin contact

Wash with plenty of soap and water.

#### Following eye contact

# Boric Acid

Version number: 1.0

---

Rinse cautiously with water for several minutes.  
Remove contact lenses, if present and easy to do. Continue rinsing.

## **Following ingestion**

Rinse mouth immediately and drink plenty of water.  
Do NOT induce vomiting.  
Get medical advice/attention.

## **Notes for the doctor**

None.

## **4.2 Most important symptoms and effects, both acute and delayed**

This information is not available.

## **4.3 Indication of any immediate medical attention and special treatment needed**

None.

## **SECTION 5: Fire-fighting measures**

### **5.1 Extinguishing media**

#### **Suitable extinguishing media**

water, foam, alcohol resistant foam, fire extinguishing powder

#### **Unsuitable extinguishing media**

water jet

### **5.2 Special hazards arising from the substance or mixture**

Hazardous decomposition products: Section 10.

### **5.3 Advice for firefighters**

Non-combustible.  
Keep containers cool with water spray.  
In case of fire and/or explosion do not breathe fumes.  
Coordinate firefighting measures to the fire surroundings.  
Do not allow firefighting water to enter drains or water courses.  
Collect contaminated firefighting water separately.  
Fight fire with normal precautions from a reasonable distance.

#### **Special protective equipment for firefighters**

chemical protection suit, self-contained breathing apparatus (EN 133)

## **SECTION 6: Accidental release measures**

### **6.1 Personal precautions, protective equipment and emergency procedures**

#### **For non-emergency personnel**

Remove persons to safety.  
Ventilate affected area.  
Do not get in eyes, on skin, or on clothing.  
Do not breathe dust.  
Wearing of suitable protective equipment (including personal protective equipment referred to under Section 8 of the safety data sheet) to prevent any contamination of skin, eyes and personal clothing.

# Boric Acid

Version number: 1.0

---

## **For emergency responders**

Wear breathing apparatus if exposed to vapors/dust/aerosols/gases.  
Warning and evacuating people in the neighborhood.

## **6.2 Environmental precautions**

Knock down dust with water spray.  
Keep away from drains, surface and ground water.  
Retain contaminated washing water and dispose of it.

## **6.3 Methods and material for containment and cleaning up**

### **Advice on how to contain a spill**

Covering of drains.  
Take up mechanically.

### **Advice on how to clean up a spill**

Collect spillage.

### **Appropriate containment techniques**

Neutralization techniques.

### **Other information relating to spills and releases**

Place in appropriate containers for disposal.  
Ventilate affected area.

## **6.4 Reference to other sections**

Personal protective equipment: see section 8.  
Incompatible materials: see section 10.  
Disposal considerations: see section 13.

## **SECTION 7: Handling and storage**

### **7.1 Precautions for safe handling**

Obtain special instructions before use.  
Do not handle until all safety precautions have been read and understood.  
Avoid contact with skin and eyes.  
Do not breathe dust.  
Obtain special instructions before use.

### **Measures to prevent fire as well as aerosol and dust generation**

Use local and general ventilation.  
Handle and open container with care.  
Removal of dust deposits.

### **Handling of incompatible substances or mixtures**

Do not mix with alkali.

### **Measures to protect the environment**

Avoid release to the environment.  
Do not empty into drains; dispose of this material and its container at hazardous or special waste collection point.

### **Advice on general occupational hygiene**

# Boric Acid

Version number: 1.0

Do not eat, drink and smoke in work areas.  
Wash hands after use.  
Preventive skin protection (barrier creams/ointments) is recommended.  
Remove contaminated clothing and protective equipment before entering eating areas.

## 7.2 Conditions for safe storage, including any incompatibilities

### Flammability hazards

None.

### Incompatible substances or mixtures

Incompatible materials: see section 10.

**Protect against external exposure, such as**  
heat

### Consideration of other advice

Keep away from food, drink and animal feedingstuffs.

### Ventilation requirements

Provision of sufficient ventilation.

### Specific designs for storage rooms or vessels

Store locked up.  
Keep container tightly closed and in a well-ventilated place.  
Keep in a cool place.

### Packaging compatibilities

Keep only in original container.

## 7.3 Specific end use(s)

No information available.

## SECTION 8: Exposure controls/personal protection

### 8.1 Control parameters

The following constituents are the only constituents of the product which have a PEL, a TLV or other recommended exposure limit. At this time, the other constituents have no known exposure limits.

| Occupational exposure limit values (Workplace Exposure Limits) |                                              |        |            |           |             |            |              |          |                  |
|----------------------------------------------------------------|----------------------------------------------|--------|------------|-----------|-------------|------------|--------------|----------|------------------|

## Notation

appx-D see Appendix D - Substances with No Established RELs

dust as dust

i inhalable fraction

partml particles/ml

r respirable fraction

STEL short-term exposure limit: a limit value above which exposure should not occur and which is related to a 15-minute period (unless otherwise specified)

TWA time-weighted average (long-term exposure limit): measured or calculated in relation to a reference period of 8 hours time-weighted average (unless otherwise specified)

## 8.2 Exposure controls

Avoid contact during pregnancy/while nursing.

### Appropriate engineering controls

Use local and general ventilation.

### Individual protection measures (personal protective equipment)

#### Eye/face protection

Wear eye/face protection.

#### Hand protection

| Protective gloves                      |                    |                                          |
|----------------------------------------|--------------------|------------------------------------------|
| Material                               | Material thickness | Breakthrough times of the glove material |
| IIR: isobutene-isoprene (butyl) rubber | ≥ 0,5 mm           | >480 minutes (permeation: level 6)       |
| NBR: acrylonitrile-butadiene rubber    | ≥ 0,35 mm          | >480 minutes (permeation: level 6)       |

# Boric Acid

Version number: 1.0

| Protective gloves                        |                    |                                          |
|------------------------------------------|--------------------|------------------------------------------|
| Material                                 | Material thickness | Breakthrough times of the glove material |
| PVC: polyvinyl chloride                  | ≥ 0,5 mm           | >480 minutes (permeation: level 6)       |
| CR: chloroprene (chlorobutadiene) rubber | ≥ 0,5 mm           | >480 minutes (permeation: level 6)       |

Wear suitable gloves.

Chemical protection gloves are suitable, which are tested according to EN 374.

Check leak-tightness/impermeability prior to use.

For special purposes, it is recommended to check the resistance to chemicals of the protective gloves mentioned above together with the supplier of these gloves.

## Body protection

Protective clothing for use against solid particulates.

## Respiratory protection

In case of inadequate ventilation wear respiratory protection.

Particulate filter device (EN 143).

P3 (filters at least 99,95 % of airborne particles, color code: White).

## Environmental exposure controls

Use appropriate container to avoid environmental contamination.

Keep away from drains, surface and ground water.

## SECTION 9: Physical and chemical properties

### 9.1 Information on basic physical and chemical properties

#### Appearance

**Physical state** solid

**Color** white

#### Particle characteristics

Granulometry < 74.4 µm = 50 %

**Odor** odorless

**Odor threshold** not determined

#### Other safety parameters

**pH (value)** 5.1 – 6.1

**Melting point/freezing point** 171 °C

**Boiling point or initial boiling point and boiling range** not determined

**Flash point** not applicable

# Boric Acid

## SECTION 10: Stability and reactivity

### 10.1 Reactivity

This material is not reactive under normal ambient conditions.

### 10.2 Chemical stability

The material is stable under normal ambient and anticipated storage and handling conditions of temperature and pressure.

# Boric Acid

Version number: 1.0

See below "Conditions to avoid".

## 10.3 Possibility of hazardous reactions

Dangerous/dangerous reactions with Reducing agents.  
May be corrosive to metals.

## 10.4 Conditions to avoid

There are no specific conditions known which have to be avoided.

## 10.5 Incompatible materials

reducing agents, metals

## 10.6 Hazardous decomposition products

Reasonably anticipated hazardous decomposition products produced as a result of use, storage, spill and heating are not known.

## SECTION 11: Toxicological information

### 11.1 Information on toxicological effects

If not otherwise specified the classification is based on:

Animal studies; Evidence from any other toxicity tests; Expert judgment (weight of evidence determination).

#### Classification acc. to OSHA "Hazard Communication Standard" (29 CFR 1910.1200)

##### Acute toxicity

Shall not be classified as acutely toxic (oral).

Shall not be classified as acutely toxic (dermal).

| Exposure route | Endpoint | Value        | Species     | Method             | Source |
|----------------|----------|--------------|-------------|--------------------|--------|
| oral           | LD50     | 3,450 mg/kg  | rat, male   | -                  | ECHA   |
| oral           | LD50     | 4,080 mg/kg  | rat, female | -                  | ECHA   |
| dermal         | LD0      | >2,000 mg/kg | rabbit      | FIFRA (40 CFR 163) | ECHA   |

##### Skin corrosion/irritation

Shall not be classified as corrosive/irritant to skin.

##### Serious eye damage/eye irritation

Shall not be classified as seriously damaging to the eye or eye irritant.

##### Respiratory or skin sensitization

###### Skin sensitization

Shall not be classified as a skin sensitizer.

##### Respiratory sensitization

Classification could not be established because:

Data are lacking, inconclusive, or conclusive but not sufficient for classification.

##### Germ cell mutagenicity

Shall not be classified as germ cell mutagenic.

# Boric Acid

Version number: 1.0

---

## **Carcinogenicity**

Shall not be classified as carcinogenic.

## **IARC Monographs**

not listed

## **National Toxicology Program (United States)**

not listed

## **OSHA Carcinogens**

Not listed.

## **Reproductive toxicity**

May damage the unborn child (if swallowed).

May damage fertility (if swallowed).

## **Specific target organ toxicity - single exposure**

Classification could not be established because:

Data are lacking, inconclusive, or conclusive but not sufficient for classification.

## **Specific target organ toxicity - repeated exposure**

Classification could not be established because:

Data are lacking, inconclusive, or conclusive but not sufficient for classification.

## **Aspiration hazard**

Shall not be classified as presenting an aspiration hazard.

## **11.2 Other information**

There is no additional information.

## **SECTION 12: Ecological information**

### **12.1 Toxicity**

#### **Aquatic toxicity (acute)**

No data available.

#### **Aquatic toxicity (chronic)**

No data available.

### **12.2 Persistence and degradability**

#### **Biodegradation**

The study does not need to be conducted because the substance is inorganic.

#### **Persistence**

The study does not need to be conducted because the substance is inorganic.

### **12.3 Bioaccumulative potential**

Data are lacking, inconclusive, or conclusive but not sufficient for classification.

#### **n-octanol/water (log KOW)**

not relevant  
(inorganic)

### **12.4 Mobility in soil**

# Boric Acid

Version number: 1.0

---

Data are lacking, inconclusive, or conclusive but not sufficient for classification.

## 12.5 Results of PBT and vPvB assessment

According to the results of its assessment, this substance is not a PBT or a vPvB.

## 12.6 Other adverse effects

Data are not available.

### Remarks

None.

## SECTION 13: Disposal considerations

### 13.1 Waste treatment methods

Dispose of contents/container in accordance with local/regional/national/international regulations.

#### Sewage disposal-relevant information

Do not empty into drains.

#### Waste treatment of containers/packages

Completely emptied packages can be recycled.

Handle contaminated packages in the same way as the substance itself.

### Remarks

Please consider the relevant national or regional provisions.

## SECTION 14: Transport information
